PROFESSIONAL SUMMARY

Second-year B.Tech Computer Science & Engineering student specializing in **Artificial Intelligence & Machine Learning** at Adamas University. Strong academic foundation in programming, artificial intelligence, mathematics, and engineering fundamentals. Currently developing knowledge of **Programming Languages, Data Structures & Algorithms, Database Management Systems, and Computer Systems**. Interested in building practical software and AI/ML projects while strengthening problem-solving and programming skills.

EDUCATION

Adamas University, Kolkata, West Bengal

Bachelor of Technology (Honours) in Computer Science & Engineering

Specialization: Artificial Intelligence & Machine Learning

2025 – Present

- **Semester I SGPA:** 8.05
- **Semester II SGPA:** 7.86
- **Current:** 2nd Year, 3rd Semester

Academic coursework includes **Introduction to Programming, Principles and Applications of AI, Programming Lab, Engineering Mathematics I & II, Electrical & Electronics Technology, Engineering Workshop, Design Thinking & Prototyping**, and other engineering fundamentals.

Current Semester Coursework

- Principles of Programming Language
- Data Structures and Algorithms
- Database Management Systems

- Engineering Mathematics III
 - Switching Circuits and Logic Design
 - Programming Language Lab
 - Data Structures and Algorithms Lab
-

TECHNICAL SKILLS

Programming: Python, C/C++

Artificial Intelligence & ML: AI Fundamentals, Machine Learning Fundamentals

Computer Science: Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Programming Fundamentals

Databases: SQL, Relational Database Concepts

Tools & Platforms: Git, GitHub, VS Code

Core Skills: Problem Solving, Debugging, Algorithmic Thinking, Software Development Fundamentals

Skills should be adjusted to match technologies you have actually used in projects.

PROJECTS

AI/ML & Software Development Projects

GitHub Portfolio: <https://github.com/codewithsayanjit>

- Developing and maintaining programming and computer-science projects using GitHub.
 - Applying programming fundamentals and problem-solving techniques to practical projects.
 - Exploring **Artificial Intelligence and Machine Learning** concepts through academic and personal development work.
 - Practicing algorithmic problem solving and implementation through programming exercises.
-

ACADEMIC ACHIEVEMENTS

- Achieved **8.05 SGPA** in Semester I.
- Achieved **7.86 SGPA** in Semester II.

- Secured **A+ in Introduction to Programming** in Semester I.
 - Secured **A in Principles and Applications of AI** in Semester II.
 - Secured **O grade in Environmental Science** and **Electrical & Electronics Technology Lab** in Semester II.
-

RELEVANT COURSEWORK

- Introduction to Programming
 - Programming Lab
 - Principles and Applications of Artificial Intelligence
 - Engineering Mathematics I & II
 - Electrical and Electronics Technology
 - Electrical and Electronics Technology Lab
 - Design Thinking & Prototyping
 - Data Structures & Algorithms
 - Database Management Systems
 - Principles of Programming Languages
 - Switching Circuits & Logic Design
-
